SUMMARY

Proficient junior software engineer with 1 year of experience in front-end development and implementing software applications. Frontend developer with a passion for creating efficient, user-friendly, and visually appealing websites. As a web developer, I thrive on solving complex problems through innovative and creative solutions. Also I am a tech-savvy web developer with a solid foundation in HTML, CSS, JavaScript, Bootstrap, React js and a variety of web development frameworks. Utilize Java and Python to write scalable, secure code with a knack for problem-solving.
